MEET DESAI

AI Enablement & Project Coordination | Generative AI | Operations

Etobicoke, ON | 647-309-8459 | meetdesai9928@gmail.com | www.linkedin.com/in/meetdesai28

PROFESSIONAL SUMMARY

Operations and project coordination professional with nearly three years of experience in high-volume operations, cross-functional coordination, documentation, user support, and training support, backed by a Post-Graduate Diploma in Project Management. Hands-on experience applying Generative AI across text, image, and video workflows through prompt iteration, AI feature testing, output evaluation, and practical use-case exploration, with a strong interest in AI enablement, adoption, and user-centric technology implementation.

CORE COMPETENCIES

AI Enablement & Adoption • AI Feature Testing • Prompt Iteration & Output Evaluation
AI Training & User Enablement • Project Coordination • Internal Communications & Documentation
Use-Case Exploration • Change Support • Cross-Functional Stakeholder Collaboration

GENERATIVE AI PROJECTS

Independent Hands-On Projects

- Experimented with ChatGPT, Claude, and other generative AI platforms across text, image, and video workflows, using AI-assisted prompt development, iterative testing, and cross-platform prompting to explore practical use cases.
- Tested multimodal AI workflows including property walkthrough concepts, image-to-video generation, and AI avatar/presenter videos; evaluated instruction adherence, usability, visual consistency, scene continuity, realism, and overall output quality.
- Captured issues and limitations in generated outputs, refined prompts and instructions based on observed results, and compared approaches across AI tools to improve launch-ready outputs and develop reusable prompting practices.

PROFESSIONAL EXPERIENCE

Passenger Service Agent (Permanent Part-Time) — Oct 2023 – Jul 2026
Airway Interline Inc. — Mississauga, ON

- Coordinated time-sensitive operations and communications with airlines, hotels, transportation providers, managers, and internal teams during disruptions affecting approximately 200–250 passengers per event.
- Managed high-volume customer questions and operational issues, communicated clear updates and practical next steps, and redirected or escalated complex cases to appropriate stakeholders.
- Maintained accurate operational records, tracking files, customer information, and administrative documentation while following established SOPs, policies, and recurring processes.
- Supported new team members by explaining procedures, answering questions, sharing practical guidance, and reinforcing consistent service standards.

TECHNICAL TOOLS

Generative AI: ChatGPT • Claude • Google AI tools • HeyGen • Higgsfield
Project & Productivity: Jira • Smartsheet • Microsoft Office Suite (Excel, PowerPoint, Word) • Google Workspace • Outlook
Operational Systems: QuickRes • Troya • POS Systems

EDUCATION

Post-Graduate Diploma in Project Management — 2024
Algoma University — Mississauga, ON

Bachelor of Engineering, Textile Processing Engineering — 2022
The Maharaja Sayajirao University of Baroda — India
